DETAILED ACTION

Continued Prosecution Application

The request filed on 11-19-2001 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/541,873 is acceptable and a CPA has been established. An action on the CPA follows.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 44, drawn to method of selecting inhibitors of an autoinducer, classified in class 435, subclass 41.
- II. Claim 45, drawn to method of selecting synergists of an autoinducer, classified in class 435, subclass 41.
- III. Claims 46-47, drawn to culture medium, classified in class 435, subclass 325.
- IV. Claims 48-53, drawn to methods of regulating gene expression, classified in class 435, subclass 455.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and IV are separate and distinct from each other as they are drawn to differing methods utilizing different compositions, having different steps and modes of action and having differing results.

Inventions III and IV are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product

Art Unit: 1645

as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the culture medium can be used in the normal maintenance of cells.

Inventions III is separate and distinct from Inventions I and II as the culture medium of Invention III cannot be used in the methods of Inventions I and II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert A Zeman whose telephone number is (703) 308-7991. The examiner can normally be reached on M-Th 7:30 am - 5:00 pm and Alternate Fridays.
